

FORKLIFT COURSE

Course Objectives:

The Forklift course covers both theory and practical components and applicants are examined for their Forklift licence. The course covers the Safety Rules and Regulations and how to operate the Forklift and how to handle loads competently.

On booking of this course a set of Instruments is sent out to students 10 days prior to the course commencement, **these instruments must be studied prior to the course dates**. These Instruments compile the theory component of the course where the students will be examined; failure of this exam will mean the student will need to re-book for the course once again

On successful completion a WorkCover fee applies, for the issuing of the licence.

Prerequisite: Applicants/Students must be sufficiently literate in English to pass theory, assignment and practical components of the HRW assessment without the use of an interpreter. Applicants must be a minimum 18 years old.

Course Duration: Two Days

Note:

- All participants will be issued with course notes
- Students to bring two passport photos on day one of the course
- Students to bring appropriate PPE: safety shoes, vests, helmets

Note: **for all Training Dates and class bookings please contact CEPUTEC**
